## Education

### Thapar Institute of Engineering and Technology

B.E. in Computer Engineering ; CGPA: 8.32

Punjab, India

Aug 2020 – May 2024

### National Convent Sr. Sec. School

Class XII (CBSE); Percentage - 92.4%

Punjab, India

Apr 2019 – Mar 2020

### DAV Centenary Public School

Class X (CBSE); Percentage - 94.4%

Punjab, India

Apr 2017 – Mar 2018

## Experience

### Niti Tantra

Research Intern

Remote

Sep 2021 - Feb 2022

- Actively Participated in the team Discussions.
- Formulating Ideas trending in national politics.

### Paryavaran Welfare Society

Member/Finance Secretary

TIET

Oct 2020 – July 2023

- Led team to conduct a society's flagship event ECO-PHILIA and managed finances for other events such as ECONIGMA which was another flagship event of the society.
- Tried to engage as much audience/students to contribute to environment & engage people towards the same.

## Projects

### YouTube Videos Scraper | *Selenium, Python, AWS Lambda*

[Link](#)

- Developed a trending YouTube video scraper to automatically extract data from the top 10 trending videos.
- Implemented an email notification system to send useful information about the trending videos.
- Configured a recurring job using AWS Lambda to schedule periodic updates, ensuring the latest list of trending videos is always available.

### Diabetes Prediction | *Python , Scikit-learn*

[Link](#)

- Prototyped a diabetes prediction system that predicts diabetes in patients based on the specified symptoms such as pregnancies, BMI, age, blood pressure etc.
- Tested the performance of 3 Machine Learning algorithms and achieved the best average accuracy using Random Forest.

### Blood Donation & Procurement Management System | *MySQL, PL/SQL*

[Link](#)

- Built a relational database to efficiently organize data of Blood Banks & procurement network.
- Technology to construct, maintain and manipulate various kinds of data about person's donation or procurement of particular blood group.

## Certifications

### OOPs Guided Path | *Coding Ninjas (August 2023)*

- Basics of Object oriented programming such as constructors, destructors, abstract class etc.

### Python Essentials 1 | *Cisco Certified (July 2023)*

- Use the syntax, semantics and the most important elements of Python Standard Library to write Python scripts and resolve implementation challenges.

### Mastering PL/SQL by Parteek Bhatia | *Udemy (May 2022)*

- Use triggers, cursors, procedures and functions and their use in RDBMS.

## Achievements

- Solved over 600+ DSA questions on platforms like [Leetcode](#), [CodeStudio](#), [GeeksForGeeks](#).

## Technical Skills

- |          |            |              |           |            |
|----------|------------|--------------|-----------|------------|
| • C++    | • C        | • JavaScript | • PL/SQL  | • Selenium |
| • Python | • HTML/CSS | • SQL        | • MongoDB |            |

## Relevant Coursework

- |                   |                       |                      |                           |
|-------------------|-----------------------|----------------------|---------------------------|
| • Data Structures | • Database Management | • Algorithm Analysis | • Artificial Intelligence |
| • OOPS            | • Computer Networks   | • Operating System   |                           |
